Strike Against Themselves

There was an element of humor in that September 2nd dispatch from Indianapolis, Ind., in which the Associated Press reported "something new under the labor sun"—a strike against a company which the strikers themselves owned!

Axis Reported Asking Franco To Explain Move

By The Associated Press
The ouster of ardent pro-Nazi Ramon Serrano Suner from the Spanish foreign ministry by his brother-in-law, Generalissimo Franco was accepted in the United Nations today as a slight lifting of the clouds in that corner of the Mediterranean.

On the other hand, Axis sources showed restraint, and suggested that General Franco is being asked to explain.

A broadcast by the German news agency Transcona, said no statement concerning the changes was being made by the German foreign office today and that no effort would be made to "anticipate an eventual declaration on the subject of General Franco."

Born dispatches said German newspapers generally held a favorable view of the move, but also noted a "shift" in the attitude of the German government toward the Spanish Republic, and one of the many Spanish refugees in that country, said the change in attitude was "the greatest importance."

But Alvarez de Albornoz, former Republican minister of justice, said he believed it was no more than a "political shift" and that the Spanish Fascist state to maintain its adherence and identification with the Axis and at the same time alleviate its precariously grave situation with British and American aid.

The Rio de Janeiro Journal editorially linked the Spanish cabinet shakeup with Brazil's entry into the war and construed it as a Spanish swing from the Axis orbit.

All of Draft Board Resigns

Rolan, Tex., Sept. 4—(P)—Fisher county's draft board has quit en masse—after first deferring all draftees in the 42 men who were to have answered an August 28 call for induction.

And over in San Antonio, secretary-member Ed McClannahan of the Bexar county board No. 8 has resigned in protest against a Washington decision of a Negro editor.

The Fisher county board members, W. W. Morton, George W. Riley and A. B. Hilburn, said in a signed statement that State Selective Headquarters arbitrarily had deferred one registrant because he was a farm and ranch hand.

And that classification, said the board, fits 98 per cent of the county's registrants.

But most of their 42-man board is in class 2-A and has presented their resignations yesterday.

At Austin, Adj. - Gen. J. Vatt Page, head of the state selective service system, withheld comment on their not asking his local board to accept the resignations.

The San Antonio resignation was prompted by a six-months deferment granted in Washington to James Andrews, 38, Negro editor, local board and state officials had denied deferment. Andrews conceded Negro journalists are needed to keep up Negro morale in wartime.

Germans Use 25 Divisions in Stalingrad Drive

—Europe

By HENRY C. CASSIDY

Moscow, Sept. 4—(P)—Field Marshal Fedor von Bock bent against Stalingrad with 25 divisions today in an effort to capitalize on edges driven systematically into its defenses, but Red Army men were reported to have counterattacked with a violence that regained some ground northwest of the city.

Germans striking from the southwest again succeeded in making a slight advance at enormous cost, the mid-day war bulletin reported.

Fass spoke of fighting upon "the immediate approaches to the town" and said "the Hitlerite" tank columns decimated in previous engagements have been considerably replenished.

The battles "have no precedent in their violence," the military newspaper Red Star said. It reported pilots from Egypt had joined the enemy's air squadrons while ground troops from France were among the 25 Axis divisions assigned for the assault upon Stalingrad.

Commercial heret of the Volga basin and a gateway to the Caspian.

Red Army men fighting within the Don bend around Kletskaya, harassing the Axis detachments moving eastward across the Cosack Steppes, occupied another victory and repelled several counterattacks, the communique announced.

The Germans gained a strategic height in the battle for Novorossisk, Soviet naval base on the Black Sea, more than 400 miles southwest of Stalingrad, by weight of superior numbers, it was announced.

Elsewhere in that sector, however, the Russians were reported to have withstood several attacks and destroyed six tanks and wiped out more than 150 Germans.

"In the Moxdoka area (of the central Caucasus) our troops fought and wiped out an enemy group which had crossed a water line," the communique said. (The Terek river flows past Moxdoka and the Grozny oil fields on its way to the Caspian sea.)

The Germans were pictured as attacking southwestern defenses of Stalingrad incessantly with large forces in a narrow sector, tanks and machine guns, the communique said.

Soviet riflemen supported by tanks were declared to have broken into enemy positions above the city.

A fierce engagement between the Red Army men wiped out two companies of Hitlerites, destroyed four tanks and nine anti-tank guns and captured five mortars and eight machineguns, the communique reported.

A Stalingrad dispatch said German planes, flying from various points of the compass, were attacking the city regularly in waves of 150 or more.

Reinforcements were declared to have given the German command a superiority of two or three to one over the Russians on some sectors.

(While the Soviet Information Bu-

Jap Force at Milne Imitates Marines

General MacArthur's Headquarters, Australia, Sept. 4—(P)—The Japanese invaders of the Milne Bay region of New Guinea were disclosed today to have included members of a naval landing force similar to the United States Marines.

This information came from the fact that equipment captured by the Australians when they sprang their trap had the anchor symbol of the Japanese Navy.

The equipment, including flame throwers, light and heavy automatic rifles, hand grenades and mortars, has been brought to Australia for close examination.

—Washington

Washington, Sept. 4—(P)—Representatives of the nation's newspaper publishers accepted the assignment today to undertake a gigantic scrap salvage campaign, spurred by a statement from WFB Chairman Donald M. Nelson that "we're not doing a very good job of winning this war."

Nelson's appeal for the campaign voiced a feeling of 200 publishers and editors was backed by the declaration of R.W. Wolcott, president of Lukens Steel Company, that "there are only two weeks' supply of steel scrap in the country in the hands of steel mills."

"Unless a miracle happens, the furnaces are going down over the week-end in Chicago," Wolcott, chairman of the American Industries' Salvage committee, told the group. San Francisco is in bad shape, Pittsburgh and Youngstown are in horrible shape.

Walter M. Dear, president of the American Newspaper Publishers Association and publisher of the Jersey Journal at Jersey City, N. J., got a unanimous show of hands when he asked permission to name a committee to initiate a plan modeled after the "Nebraska plan."

This was a three-week campaign conducted by the Omaha World-Herald, which netted 104 pounds of scrap for every man, woman and child in Nebraska.

Nelson told the newspapermen that many of the new war plants were chewing up material and producing armament at a greater rate than had been thought possible.

"We must get them the material," he asserted, "and one sure way is to bring out the scrap."

Nelson said an all-out salvage effort to include abandoned railroads, old buildings, and other scrap, would be used as a source of material, and to prove that the salvage campaign "is no bog-dogging gesture to build sympathy."

"If the people are not convinced, your headlines may tell them how we finally arrived, only to find that we had come with too little and too late," Robinson concluded.

A minimum of 14,000,000 tons of iron and steel scrap must be rounded up in the last six months of this year to prevent the steel industry's furnaces from shutting down, it was estimated by Paul Atch, deputy director of WFB's conservation division.

U. S. production of aircraft has been increased 100 per cent over that achieved during the last quarter of 1940.

Chairman George (D-Ga.) told reporters the committee planned to decide whether it would write into the new revenue bill a spending tax as asked by secretary of the treasury Morgenthau, a sales levy or some other form of source collection of taxes before it acted finally on individual income taxes.

Senator Danaher (R-Conn.) explained to the committee his plan for collection of a sales levy by stamps.

Under the Danaher plan, each purchaser of an article would be required to buy stamps of 10 per cent of the sale price. These stamps in turn could be used as payment on the individual's income tax, or could be held until after the war when the government would rebate the amount they represented.

To lighten the effect on low income persons, Danaher suggested that when the first \$25 worth of stamps had been obtained on \$250 in purchases, the holder would be permitted to purchase an additional \$250 in goods without paying any tax.

Seven Jap Vessels Listed As Probably Sunk by U.S. Flyers Operating in China

—War in Pacific

Chungking, China, Sept. 4—(P)—United States airmen scored direct hits on Jap headquarters at Nanchang, probably sank seven steamers and damaged others in the Singze-Hankow channel and left a number of other craft in flames on Lake Poyang Wednesday devastating series of raids upon the enemy in Kiangsi and Hupeh provinces.

Meanwhile, the Chinese high command announced that Lanchow, 10 miles north of Kichow, the provisional capital of Chekiang province, had fallen into Japanese hands in a counterattack but said the Chinese were renewing their assaults and expected to recapture it.

The Chinese Central News agency reported from the southern, or Canton, front that Chinese units in an overwhelming assault were pressing upon Sunkai, only 15 miles from Canton and had recaptured several more points about 25 miles to the northwest of the metropolis.

On the Min river Estuary at Foochow in Fukien province, the Japanese also were reported withdrawing.

In other action yesterday over Kweilin, in coastal Chekiang province, Chinese informants said "six dragons" of the U. S. Army Air Forces shot down five Japanese planes yesterday in a spectacular air battle.

The raids were made in support of Chinese forces beating at the defenses of Nanchang, the main Japanese base in Kiangsi, and at Kichow, Chekiang capital and big base from which American bombers could raid Japan. General Stilwell's war bulletin said that in all Wednesday's operations only one American plane was missing.

The Americans pounced on a fleet of 25 sailboats and heavy junks loaded with Japanese troops on Kweilin.

One raider was shot down and two others damaged at Lingling, the agency said.

Two Messerschmitts, a 109 and 110, were shot down by American fighters and United States Air Force Headquarters said.

"In the course of intensive operations United States medium bombers with fighter escorts from the Pacific and the Atlantic bled groups attacked enemy motor transport in the battle area. Several hits and near misses were observed. Several vehicles were destroyed."

Medium bomber planes also attacked a version of the Axis were seen in the target area. Fires were started in the vicinity of aircraft parked on the airfields.

While the Axis withdrawal in the Ruweisat-Hemeimat sector apparently has been relieved, the situation temporarily military observers warned against too much optimism, pointing out that the battle still is in its preliminary phases and that both sides are merely jockeying for position.

Rommel, they said, has not yet suffered crippling losses to his armored strength and there is no indication that he is trying to avoid a showdown.

On the other hand, these sources said the Axis chiefs planned to bring up to the battle line vast supplies for an offensive—including sufficient gasoline to feed his mechanized forces for 10 days of hard fighting.

The RAF aided by the United States Army Air Forces, kept their supply dumps under an almost continual hail of bombs.

The main body of Lieut. General E. L. Montgomery's Eighth Army, meanwhile, remained poised, ready to hit back should Rommel make a mistake.

In Cairo the RAF issued a statement declaring the Axis had lost 2,382 planes in combat over the desert since the start of the war and putting the United Nations at 1,593 planes.

Thus far this year, the statement said, Axis losses total 1,417 planes and British losses 1,114.

Italy's High Command gave a conflicting version of the battle, asserting that "encounters by armored elements have resulted to our advantage" and making no mention of an Axis retreat.

The enemy lost a number of tanks, the Italian command said. "Numerous New Zealanders have been taken prisoner."

The Fascist communique also declared that 25 Allied planes had been shot down by German and Italian fighters.

British military observers warned against too much optimism as a result of Rommel's withdrawal, pointing out that the battle was still in its preliminary phases with both sides jockeying for position.

A P. Layman, store manager, slightly as he departed after said the customer shuddered emptying his flash into the scale. A humane society agent finally removed the snake, Layman said. It had been there several days, amazing no end of patrons.

Initiative Taken Temporarily by Allied Forces

—Africa

Cairo, Sept. 4—(P)—Combined action by the U. S. Army Air Forces, the RAF and hard-hitting British mechanized units appeared today to have wrested the initiative momentarily from Field Marshal Erwin Rommel, relieving Axis pressure on the southern end of the 35-mile El Alamein line, 80 miles west of Alexandria.

Under a steady pounding from the air and on the land, a British communique announced, powerful enemy armored forces concentrated in the Ruweisat-Hemeimat sector in apparent preparation for "an attempt to turn the British left flank, withdrew slightly to the westward yesterday."

The bulletin said the aerial bombardment to which the enemy was subjected yesterday had exceeded that of the previous day—which smashed all records for the North African campaign.

Despite the scope of the air operations British headquarters reported that all the Allied bombers had returned safely to their bases. Six Axis planes were shot down during the day.

There was comparatively little enemy air activity over the battlefield, not a German divebomber appearing over the lines. Observers recalled that dispatches from the British ground forces had noted heavy German divebomber losses in the "past few days."

The enemy's main concentration moved slightly westward during the day, the communique said.

Allied heavy bombers broke their previous day's record of sorties against enemy concentrations. No enemy dive-bombers operated over the battle area.

The communique indicated that U. S. Army and RAF fighters, coupled with Allied ground forces, had won at least the first phase of the new five-day struggle by compelling Rommel to draw in his steel-tipped horns.

Two Messerschmitts, a 109 and 110, were shot down by American fighters and United States Air Force Headquarters said.

"In the course of intensive operations United States medium bombers with fighter escorts from the Pacific and the Atlantic bled groups attacked enemy motor transport in the battle area. Several hits and near misses were observed. Several vehicles were destroyed."

Medium bomber planes also attacked a version of the Axis were seen in the target area. Fires were started in the vicinity of aircraft parked on the airfields.

May Complete 'Shoot Square' Lewisville Road Says Humphrey

By SAM G. HARRIS

Little Rock, Sept. 4—(P)—If you want to be a perpetually successful elected office holder "shoot square" with your friends, says the people according to the dictates of your own conscience, keep out of political races other than yours and attend strictly to your own business.

That is the time-tested formula of J. C. Humphrey, armless state auditor, who has been through the political mill for more than two decades and has just come up with the Democratic nomination, tantamount to election in Arkansas, for his seventh term as auditor.

Humphrey, 54, admitted a professional politician, feels that the formula is better than most for success at the polls and offers as proof the fact that he has led the full statewide ticket, with one exception, in all primary and general elections since 1936. In his recent primary he got some 152,000 votes to approximately 48,000 for his only opponent, a popular and capable former employee of the State Welfare Department. This was 23, next best liked man seeking a state office.

"If a man is your friend, you must stick with him," said Humphrey. "You can't please everybody as an office holder so do the job the way your conscience dictates. No matter how popular you are or how faithful you've been, when you start messing in the

officials said.

Men From Missouri Design Army Infantry Equipment

BY DAVENPORT STEWARD
NEA Service Staff Correspondent

Fort Benning, Ga.—Only men from Missouri, figuratively speaking, are members of the Army Infantry Board.

That's because this little known group of regulars, many of them examiners, tests, modifies and designs equipment for the infantry of the United States Army—and they say "Show me." They see to it that a new article is not only as good, but better than equipment already in use.

Because of the existence of this board, established in 1920, no infantryman will ever take into the field weapons or other equipment still in the experimental stage.

Chief of Staff
Was on Board
One of the members of the board from 1927 until 1932 was the same George C. Marshall who today is chief of staff of the United States Army. It is composed of a number of men of field officers, none of whom has had less than 18 years service, and one of these heads the test section.

The present director is Col. Matthew J. Gunner, who wants no "yes-men" under him. Board members must have analytical minds, have the courage of their own convictions and be open-minded.

The board operates on the theory that perfection is worth striving for, but waiting for perfection you might as well use the best available. Round-table discussions of the board sometimes turn into heated arguments, with accompanying table-thumping and bursts of invective.

Thumbs Down
On Shorts
Brig. Gen. Leven C. Allen, who as commander of the Infantry School also serves as president of the board, says it's quite educational to see the members at each other's throats one morning and at lunch together not long afterward.

Although the board can adopt no equipment for the infantry, it can and does speak up for or against any proposed changes. It voted against shorts for field duty because, no matter the other arguments, a foot soldier in shorts can't get about in briars, heavy undergrowth and the sharp-edged grasses found in tropical countries, notably the Philippines.

It recommended the new roll-collar shirt, but at the same time urged retention of long sleeves as protection against sharp grasses, stubble and rocks. The infantryman, of course, has to throw himself prone without having time to pick where he's going to flop and short sleeves can result in some nasty wounds.

Garand Rifle
Got The Works
The War Department sends new ideas or suggestions to the board's director, who then assigns one officer to go into the matter exhaustively. He also turns models over to the chief of the test section, and what the test officer and his assistants can't think up in the way of tests isn't worth bothering with.

Any new gun would get the same tests as did the M-1 (Garand) semi-automatic rifle. The old Springfield was a good rifle, battle tested and dependable. Could the Garand stand the same abuse the Springfield stood in the mud of France, for example? The foot soldier worms his way along on the ground, frequently getting in sand, mud or water into the working parts of his weapon. What he wants and needs is a gun which can take abuse and still be effective.

So they took the Garand out on the range and gave it the business. Sand was poured into the magazine, blown out and the piece fired. Mud was dumped in, wiped out hastily and the piece fired. Water was poured in and the gun was fired. It was dropped carelessly on the ground with the

Social Calendar

- Friday, September 4th**
A luncheon for members of the Hope Garden club will be held at the home of Mrs. Harry Shiver, 12:30 o'clock.
- Monday, September 7th**
The Wesleyan Guild of the First Methodist church will meet at the home of Mrs. Lyman Armstrong, 7:45 o'clock. Mrs. Thompson Evans, Jr., will be co-hostess for the meeting.
- Circle No. 2 of the Women's Society of Christian Service will have a picnic meeting at the Fair Park, 4 o'clock. In case of rain the group will assemble at the church recreational rooms.
- United Daughters of Confederacy**
In First Meeting of the Year. Mrs. H. J. F. Garrett, president of the Pat Cleburne chapter of the U. D. C., presided at the September meeting of the group at the home of Mrs. J. A. Harkins, Thursday afternoon at 4 o'clock. Mrs. J. P. Gorin was co-hostess for the afternoon.
- The singing of Lee's favorite hymn, "How Firm a Foundation," opening the meeting. Mrs. Wilbur Jones played the accompaniment. Response to the roll call was made by those present, giving the name and rank of a relative in the armed forces.
- During the business session, Mrs. A. Slusser was elected president for the coming year. Two prospective members, Mrs. S. D. Cook and Mrs. Jim Bush, were introduced.
- As program chairman, Miss Maggie Bell introduced Mrs. Shusser, who talked on "Arkansas Boys in the Service." Mrs. J. A. Henry discussed "Douglas MacArthur."
- Ten members of the chapter volunteered to make surgical dressings at the Red Cross production rooms one Tuesday evening each month. Year books, compiled by Mrs. Pat Casey, Mrs. C. A. Haynes, Mrs. Corrie and Mrs. Henry, were distributed.
- A delicious dessert course was served during a social hour.
- Brookwood P. T. A. Executive Committee Completes Plans**
The first meeting of the Executive committee and standing committees of Brookwood P. T. A. was held at the home of Mrs. E. E. McPherson Wednesday afternoon.
- Officers for the year include: Mrs. McPherson, president; Mrs. C. W. Tappley, vice-president; Mrs. Clyde McKee, secretary; Mrs. Harry Hawthorne, treasurer; Mrs. Otto Taylor, historian.
- Committee chairmen appointed are: Mrs. E. H. Jones, program; Mrs. Earl O'Neal, publicity; and Mrs. Claude Lauterbach, publicity.
- bach, publicity:** Mrs. J. B. Shoford, hospital.
- Mrs. Andrews, parent education:** Mrs. George Newbern, recreation; Mrs. Lullie Allen, safety; Miss Hazel Wall, library; Mrs. G. L. Hobbs, conservation; Mrs. B. C. Hyatt, music; Mrs. Ted Jones, home and family life; Mrs. C. W. Bridgers, school lunch program; Mrs. C. W. Tappley, spiritual.
- During the afternoon the hostess served a delicious ice course to those attending.
- Tommy-Huckabee**
Mr. and Mrs. Tom Huckabee announce the marriage of their daughter, Edna, to Sergeant Thomas E. Tommy, son of Mr. and Mrs. J. O. Tommy of Nashville, Ark.
- The marriage was solemnized Tuesday, August 25, at Colorado Springs, Colo.
- The bride, who returned to her home in Car and Waco were overnight visitors in the city.
- Mr. and Mrs. Robert F. McCune**
of Indiana and Waco were overnight visitors in the city.
- Miss Betty Ann Benson and Charles Benson** departed this week for Monroe, La. to be the guests of friends.
- Mrs. Charles Harrell and daughter, Frances, Mrs. Dewey Hendrix, Mrs. J. P. Evers and daughter, Nell Jean,** spent Thursday in Little Rock.
- Miss Mable Smith** is home from a vacation trip to Indianapolis and Franklin, Ind. and St. Louis.
- Mrs. Therman Swett and little son, Warren** are in the city. Mrs. Swett is the guest of Mrs. W. P. Graves.
- Miss Frances Harrell** is week-end guest of the guest of Miss Marian Crutchfield.
- After visiting her daughter, Mrs. E. E. Tappley, and Mr. Tappley in Beaumont, Texas, Mrs. Harrell has returned to her home in the city.
- Personals**
Ensign Willis Garrett Smith has been promoted to the rank of Lieutenant, Junior Grade, U. S. Naval Reserve, his parents, Dr. and Mrs. Don Smith have been notified.
- Master Wendell Elkins, son of Mr. and Mrs. Hugo Elkins,** is a patient in the Chester hospital, friends will rejoice to know.

Newsom Comes Through for Bums by Winning

Associated Press Sports Writer—When the Brooklyn Dodgers bought big Buck Newsom from the Washington Senators last Monday for a price now understood to have been \$25,000, plus a minor league pitcher, they said they would be satisfied if the veteran won ten games for them in the stretch drive for the National League pennant.

On that basis the Showboat's debut for the Dodgers yesterday at Cincinnati was a triumph. Newsom, with his rare ability for a grand gesture, provided a performance to meet the value.

He shut out the Cincinnati Reds 2-0 on four scattered hits, no two in an inning, and struck out eight men in an almost airtight hurling duel with Johnny VanderMeer, who himself fanned eight and allowed only four safeties before being removed for a pinchhitter in the last out of the third inning.

The victory, closing Brooklyn's last western swing of the season, kept the Dodgers 4-1-2 games ahead of the St. Louis Cardinals, who crushed the New York Giants 7-0 in the hurly-hurling of Lefty Howard today.

The young southpaw hadn't won a game since June 7, but he exerted his old spell over the Giants, whom he had beaten three times in the spring, and the only club he has beaten all year except the Chicago Cubs.

The Cards made nine hits, five of them doubles in the box score, but three of them flukes on the field, as the Giants sabotaged old Carl Hubbell. With the bases loaded and two out in the third inning, Ervin Dusak lifted a fly which fell safely between Babe Barna and Bill Jurgens for two bases. In the sixth, when St. Louis scored four times, centerfielder Babe Young let two sinking liners go through him for doubles and barely held onto another after a juggling act.

Philadelphia's night game at Pittsburgh was postponed.

In the American League the speeding Boston Red Sox gained half a game on the idle New York Yankees by smothering the Detroit Tigers 2-0 on four-hit hurling by Bill Butland, who now has won six in a row. The Red Sox were held to five blows, but made them good, scoring runs in the third and another in the sixth for their fifth straight triumph and 23rd in 27 games.

The Washington Senators turned the tables on the Chicago White Sox and swept a doubleheader 3-2 and 4-1, getting the stupendous sum of 2 hits off Thornton Lee and Ed Weiland in the second game while Rookie Rae Scarborough was checking Chicago on five.

Sports Roundup

By HUGH FULLERTON, JR., Wide World Sports Columnist
New York, Sept. 4.—While the hollering is going on, what's the matter with Frank Borowy? He's the "rookie of the year" prize. We've had nominations for Vern Stephens of the Browns, Johnny Pesky of the Red Sox and Johnny Beazley of the Cards, but has any one of them bettered Frank's four shutouts and that almost-no-hitter for the Yanks? Guess folks around here got so used to Borowy when he used to win 'em all for Fordham that they forgot he's still a rookie in the big leagues. Wonder what the scorer would have called that one "hit" Wednesday if it had come in the ninth inning instead of the first?

Signal Corps
The Dodgers have called upon so many relief pitchers lately that Chuck Dressen, Frenchy Gar-danary have cooked up special signals for them. When Chuck indicates a fat man, Hugh Casey comes in; a thinman motion means Mas Macon; for Ed Head, Dressen writes his wife that he never wanted to see another Hutson. And he mailed the letter before he remembered that Mrs. Getto's family name is Hutson. —Lawson Robertson, who coached five olympic track teams, carries two letters in his pocket, one from General MacArthur and one for a Japanese olympic official asking cooperation in staging the 1942 olympics "because you are a peaceful nation like we are."

Today's Guest Star
Nixon Denton, Cincinnati Times-Star: "A middlewestern school has published a brochure, '3.5 Facts About Football.' The big fact is that not one of the 3.5, with a war on, means anything."

Service Dept.
Announcement at Fort Sheridan, Ill., that footballs are available at the post gym carries the significant note: "They can be assigned for one day only." A recent arrival at Camp Bowie, Tex., is Pvt. Guy D. Furlous, a crack armateur boxer. With that name he ought to do all right in the weekly camp bouts. —If coaching will do it, the Florida, Fla., naval air base, should turn out a fair football team. Asst. Lieut. Comdr. Patsy Clark is a former head coach, Glenn Harneson of Lehigh and George Sauer of Nebraska, and Weems Baskin, ex-Mississippi line coach.

Yesterday's Stars

By The Associated Press
Buck Newsom, Dodgers — Shut out Reds on four hits, fanning eight men.

Howard Pollet, Cardinals — Pitched four-hit shutout against Giants.

WHEN A GIRL MARRIES

By RENE RYERSON MART

BACK TO REALITY

CHAPTER XIII
AUNT FAYE had money! But Aunt Faye wasn't the kind of a person who went around assuming other people's responsibilities. It made Enid sick with humiliation to think of having to ask her for a loan . . . but there was nothing else to do.

Mrs. Luxon didn't make it easy for Enid either. "Haven't you any money at all?" she asked incredulously.

Enid flushed with her guilty secret. If her aunt knew that she had squandered her entire savings in a hair-brained escape from reality she would never help her.

"Pop only gets a small check from a benefit fund now that he isn't able to work any more," she explained lamely, "and I make \$20 a week. That doesn't go very far. Please, Aunt Faye, I'll pay it back. Every cent of it."

"I—I don't know. Perhaps a couple of hundred dollars."

Grudgingly Faye Luxon wrote her a check for that amount.

"Mom—and Pop, if he lives, must never know about this," Enid thought wretchedly. She felt that she had brought dishonor upon them by having to borrow money. They had always been poor, Pop had never made big wages, but they'd always been independent and proud. They'd never accepted nor expected help from anyone.

She wished again futilely that she hadn't spent her savings so foolishly, that she had never rented the apartment in Arlington. And there her thoughts halted curiously confused.

No, she decided after a moment, she didn't really regret what she had done, not even now, while her face still burned with humiliation. For if she hadn't rented the apartment she'd never have met Hank Holliday, never have known that the kind of a man she had dreamed about really existed.

It was the first time she had thought of the doctor since she had gone home and found the telegram from Letty. And even in the midst of her troubles the thought of him magically warmed her heart. It was with lighter steps that she went back to the hospital office and made the necessary arrangements for her father's care.

When she went back upstairs, she found the family in consultation outside the private room where they had moved Pop. Letty was worrying about her babies left in the casual care of neighbors at the resort. Enid told Phil to take her back to the cottage

and round up their scattered family.

Aunt Faye said she was dead on her feet, and that she'd have to go home, too, and get some sleep.

Enid told them all to go. She said she'd stay at the hospital and if Pop took a turn for the worse she'd let them know.

Tom lingered after the others had gone. He waited until a passing nurse disappeared into a room and then he slipped his arms around Enid and kissed her quickly.

She pulled away from him. "Don't, Tom, please not now."

He thought she was tired and embarrassed. He had no way of knowing that the alarm in her eyes and the flush that pinked her cheeks was caused by a startling and quickly suppressed memory of another man's kiss.

"Sorry, babe, I guess I shouldn't have done that, now. Listen, I hate to leave when you're at work in the morning. I'll come back next Sunday. That all right?"

She nodded. "Yes, Tom. And if Pop gets better, I'll go back with you then. I'll have to be at the office next week."

He went down the corridor swinging his shoulders, and looked back before he made the turn and waved at her.

The blood rushed to her face again. It was as if everything Tom did was designed to torture her with a mixture of shame—and longing. In just such a manner Hank Holliday had walked down another corridor and had turned at his door and waved gaily at her.

Her throat grew achingly dry and hot. This was the last precious week of her vacation. The last week of her and she wouldn't be seeing Hank, or shining shoes with him. A mist clouded her eyes. She turned slowly and went into her father's room.

She sat down in a chair in a corner of the room, out of the way, and watched the nurses move softly on their rubber-soled shoes about her father's bed. Every little while a white-coated intern would come in and check the charts and feel her father's pulse, and perhaps give some low-voiced instruction to the nurse in attendance. The room was dim and quiet, the only sound the labored monotony of her father's painful breathing.

Enid wished there was something she could do to help. It was terrible just to sit helplessly by and watch.

She didn't realize that she had fallen asleep, until someone shook her rather roughly for a

Bernie Masterson, Herb Brackett and Ed Danowski. . . Potsy also has a squad of about eight experienced players. . . Most complete football brochure to hit this desk so far comes from the Great Lakes Naval Training Station.

Bible Has Lots of Material

By BRACK CURRY
Austin, Tex., Sept. 4.—(AP)—The University of Texas grip juggernaut that sat on top of the national football heap for several weeks in 1941 will be rolling again this fall with 16 returning lettermen backed by a first class of untied sophomores.

Dann X. Bible, husky, orange and white mentor, added up his 1942 prospects today and came out with the prediction that the Longhorns will have a good running attack.

Plenty of speed, fair passing and lots of determination and enthusiasm.

But he refused to list his team higher than fourth in the South-west Conference bracket. Texas A. & M., Rice Institute and T.C.U. in that order.

That's the way Bible sees the leading conference teams stacking up.

Speed! Speed! Speed! chanted the man who piloted the Longhorns to crushing wins over eight schools last year, including an amazing 7-0 whipping of a strong Oregon team "that's our answer this year to inexperience and to weaknesses in some positions."

"We won't have boys who can go all the way as Jack Crain and Pete Layden did last year, and we need passers equal to Layden and Harkins. This year we must rely upon sophomores for our reserve strength—and in 1941 we had experienced boys for our second and third teams."

Graduation loomed from the 1942 Longhorn roster 14 stalwarts whose names will be etched in Southwest Conference annals as long as football is a national pastime.

To replace the 1941 combination, Bible will draw upon nine seniors and 12 juniors.

Fights Last Night

Fall River, Mass.—Ray Brown, 132, Chicago, knocked out Billy Napper, 135, Boston (3).

Elizabeth, N. J.—Herbert Marshall, 173, Brooklyn, outpointed Jimmy Dock, 179, New York (8).

Brooklyn—Tony Ferrara, 153, Mount Vernon, N. Y., and Larry Fontana, 155, Brooklyn, drew (8).

consciousness. "Here, wake up," a man's voice was saying. "You mustn't moan like that."

Enid stared at the man bending over her. He had a ridiculous little fair mustache, blue eyes that crinkled at the outer corners, and smooth, blond hair. She straightened her chair and put out her hands to him.

"Hank—oh, Hank. I'm so glad you're here."

Then she blinked in dismay. It wasn't Hank. It was one of the internes who had been with her father. She saw that, now, that she was fully awake. Her face burned with her confusion.

The young doctor looked at her curiously. "You must have been dreaming."

"I—I guess I was."

He helped her out of the chair, and led her out of the room, steadying her with a hand on her arm. "You're worn out," he said kindly. "Go down to the kitchen at the end of the hall and tell them to fix you some hot coffee."

"My father—" Enid began anxiously.

"He's resting easier now. I believe he has a chance to pull through."

She gave a little sob of relief. He patted her shoulder. "There now, be a good girl. Run along and get your coffee."

It was cruel, Enid thought, as she turned blindly toward the room he indicated, that this strange doctor should look so much like Hank.

There was a nurse in the serving kitchen when Enid entered. She looked up inquisitively.

"One of the doctors—the young one with the mustache—sent me in here to get a cup of coffee," Enid explained.

The nurse nodded. "That's Dr. Kingsley."

She told Enid to sit down, and busied herself at a hot plate measuring water and coffee into a percolator.

Enid watched the fragrant brown liquid bubble up into the glass top of the coffee maker, and tried to get herself in hand. It was about time, she told herself firmly, that she forgot this foolishness about Hank Holliday. Time, indeed, when she began to imagine that every strange man with a mustache looked like him.

There had been the most casual sort of friendship. She'd probably see him once more—when she returned the key of the apartment to him—and that would be the end of it.

Forty-eight hours away from him had restored the sanity of her mind, if not her heart.

Travelers Need Only One Game to Win Pennant

By The Associated Press
Proving beyond a doubt that they're the class of the league, Little Rock's Travelers practically nailed up the Southern Association pennant last night with their 12th straight win.

The Travs, pennantless since 1937, shaded Memphis 1-0 behind the five-hit twirling of Frank Pappish, and claimed their fourth one half game lead over second-place Nashville, which managed to down Knoxville, 10-7.

The Travelers have five more scheduled games—four with Nashville and need to win only one of them to clinch the flag.

Little Rock has been at the top of the heap most of the time since July 1. Twice they were knocked off the perch. Once they regained the lead by whipping Atlanta five straight, and recently got back on top by taking for in a row from Nashville.

Birmingham, making a great August drive, virtually clinched a playoff position last night by beating New Orleans 5-5, and moving into the third slot, a game ahead of the Pens.

Atlanta's chances of winding up in the playoff faded badly as the seventh-place Chattanooga Look outs steamed by them in a doubleheader, 4-2 and 7-5.

In kicking Memphis, Little Rock's papih continued the great brand of pitching that has featured the Travs' stretch drive. In 48 innings against Knoxville, Little Rock batters have been able to get only three runs, and in 27 innings Memphis has scored only five runs.

Little Rock got only seven safeties off Weldon West last night, but scored in the second when Howard Cantrell doubled and Ed Hancock singled. It was Memphis' 18th loss in the last 24 games, and entrenched the Chicks in sixth place.

Today's games and probable pitchers:

New Orleans (Seinsoth) at Birmingham (Malloy or Matuzak).

Chattanooga (unnamed) at Atlanta (Lochbaum).

Knoxville (Coffman) at Nashville (Jeffcoat).

Memphis (unnamed) at Little Rock (Lopat) at Memphis (unnamed).

To Dedicate Tabernacle

The Rev. David Burris, district superintendent, will deliver the dedicatory sermon at the Hope Gospel Tabernacle Sunday afternoon at 2:30 o'clock, with the Rev. Phinias Lewis, and the Rev. Bert Webb, former pastors speaking briefly. The Tabernacle chorus will render special selections as well as other singers and musicians, the pastor, Rev. J. E. Mamill, announced today. Sunday's congregational singing will be directed by the Rev. S. A. Mays.

Rev. David Burris
Sunday's program gets underway at 9:45 a. m., with possibly 500 in Sunday school, the pastor said. The morning worship service will be at 11 o'clock, with the Rev. Lewis speaking. Sunday night's evangelistic service will feature a sermon by the Rev. Webb. A special program of music and singing has been carefully arranged for the occasion. Basket lunch will be served at noon at the Tabernacle.

The Rev. Hamill explained that the dedicatory was arranged for the afternoon in order that members of other Hope churches could attend. He extended to all Christians and friends of Christianity a cordial invitation to attend the dedication of this \$30,000 church edifice.

The Southwest Arkansas Fellowship meeting and Christ's Ambassadors Rally will meet at the Tabernacle, beginning Monday morning at 10:45 a. m. and will continue through Tuesday night. The Rally on Monday night will be under the direction of Mrs. Agnes Stokes, C. A. president, with Rev. Bert Webb as the chief speaker. The Rev. A. W. Tanner, Camden, sectional presbyter, will preside during the fellowship meeting.

Services will be held three times daily at 10 a. m., 2:30 p. m. and 7:30 p. m.

Chicago, Sept. 4.—(AP)—In northern woodlands the wild ducks are breaking up housekeeping with the healthiest prospect in years of reaching Miami or wherever they're planning to spend the winter.

This fall a greater number of birds will wing over a lesser number of hunters equipped with enough ammunition but not enough time, fires or gasoline. The ducks can thank the war for this break.

The Izaak Walton League estimates well over 100,000,000 birds will lam it south the next few months. This would be 30,000,000 more than last season and three times as many as in 1935. Good weather and water conditions for breeding are responsible for the big flocks.

Though figures are unavailable, the league guesses that 500,000 hunters are using Izaak Walton's this season to blast at another kind of fowl. Of these probably 50,000 are duck hunters.

Then there are untold thousands who won't have time to leave their defense work benches to spend a few days in the marshes. Those who find time probably won't have tires or gasoline to take them to their favorite blinds.

The smarter ducks—the ones that hunt the water along school—will lay out a route along our coasts. There wartime regulations prevent civilians from going out in any kind of boat with a firearm.

Last year 1,400,000 duck stamps were issued to hunters. The Izaak Walton league figures the 1942 total may not exceed 1,000,000.

Guns and ammunition are not a problem, according to a leading sporting goods house. While sporting shotguns are not being manufactured, there are stocks on hand for initiates into the army of hunters.

There are enough shells in stock to supply this season's crop of hunters and some of next year's. Hunting doesn't clash with patriotism since shotgun powder is different from that used in military arms. Priority demands on brass and copper are the cause for a curb in production.

BURGLAR ALARM REALLY WORKS
Mulino, Ore.—(AP)—Albert C. Erickson has a prosperous looking store, set apart from his house, and at the junction of these main highways that make attractive getaways for burglars. As a result robberies have been attempted more than 20 times.

About 10 years ago Erickson began to get mad. With \$12 in equipment and his own hands, he rigged up a burglar alarm and installed floodlights which could be switched on from his home.

The score since then has been one robber killed on the spot, one escaped murderer trapped, and later executed, two ex-convicts sentenced to life terms, and five other would-be bad men imprisoned for lesser terms.

MISSISSIPPI DUCKS WELL EDUCATED
McGregor, Ia.—(AP)—Seven baby wood ducks made a task easy for Mrs. F. D. Hatch, 78-year-old house wife and official government reporter of bird migrations in northern Iowa.

They came quacking directly to her back door. After she had counted and identified them, their mother, waiting under a nearby bush, signaled the ducks and they began the mile trip back to the Mississippi river.

One general rule is recognized as being sound for all types of water-borne aircraft in all kinds of weather. Keep enough way on to assure positive control of your ship.
